

# INSTALLATION STRUCTURE - LPC 3/4/5 (TRIAC)

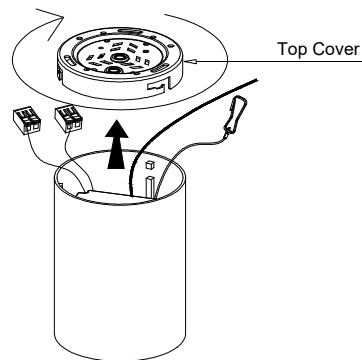

Fixture Size: Ø3.75"\*H6" / Ø4.5"\*H6" / Ø5.5"\*H6.38"

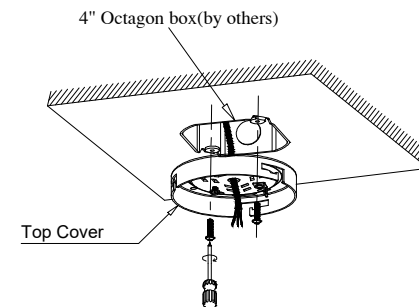

Mounting: Surface Mounting

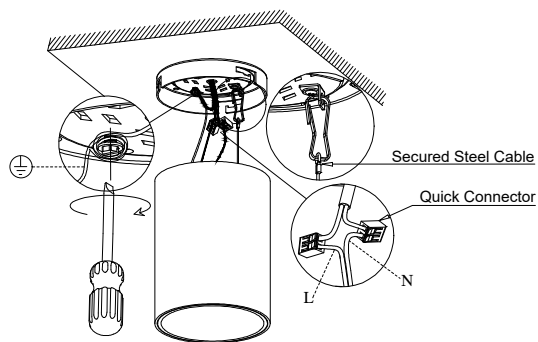

1. Unpack and take out the fixture.

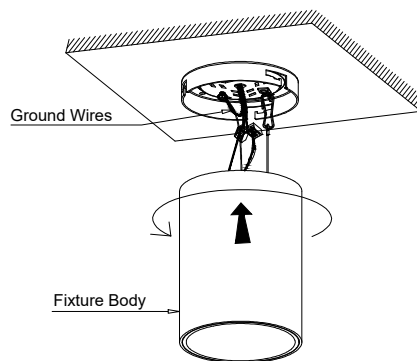

2. Remove the top cover by clockwise rotation.

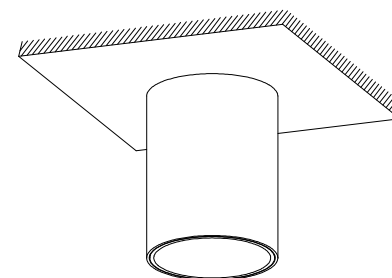

3. Mounting the top cover onto the J-box.

4. Making all the wire connections as the drawing shown.

5. Mounting the fixture body to the top cover by counterclockwise rotation until no more force can be exerted.

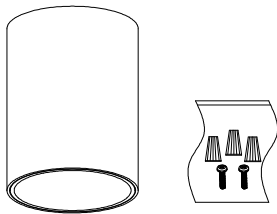

6. Finish the installing.

# INSTALLATION STRUCTURE - LPC 3/4/5 (DMV)

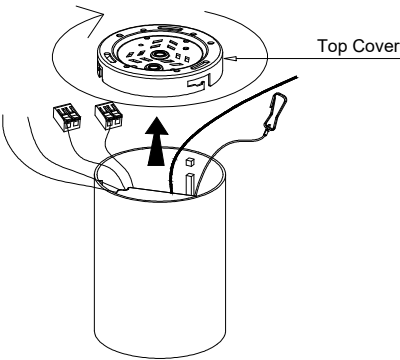

Fixture Size: Ø3.75"\*H6" / Ø4.5"\*H6" / Ø5.5"\*H6.38"

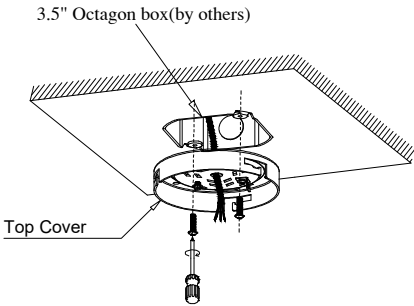

Mounting: Surface Mounting

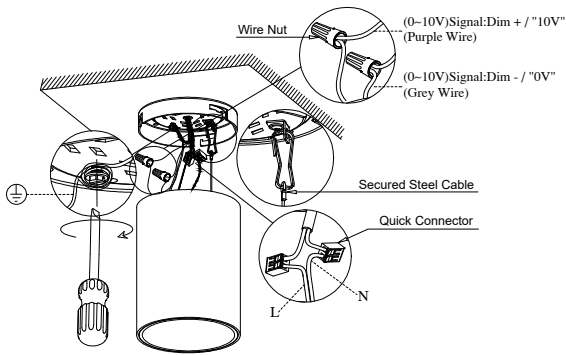

1. Unpack and take out the fixture.

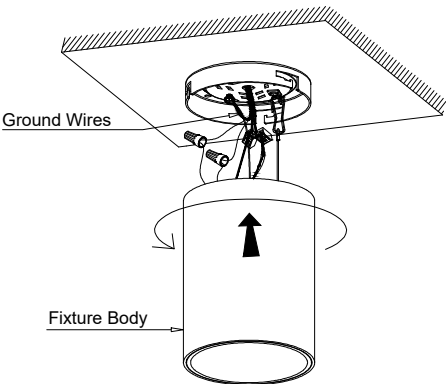

2. Remove the top cover by clockwise rotation.

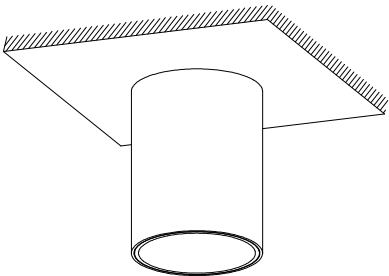

3. Mounting the top cover onto the J-box.

4. Making all the wire connections as the drawing shown.

5. Mounting the fixture body to the top cover by counterclockwise rotation until no more force can be exerted.

6. Finish the installing.

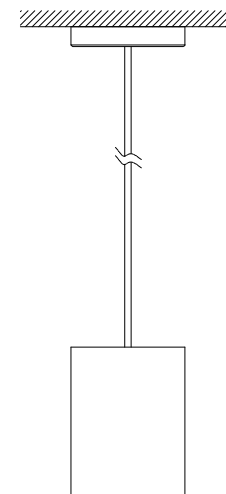

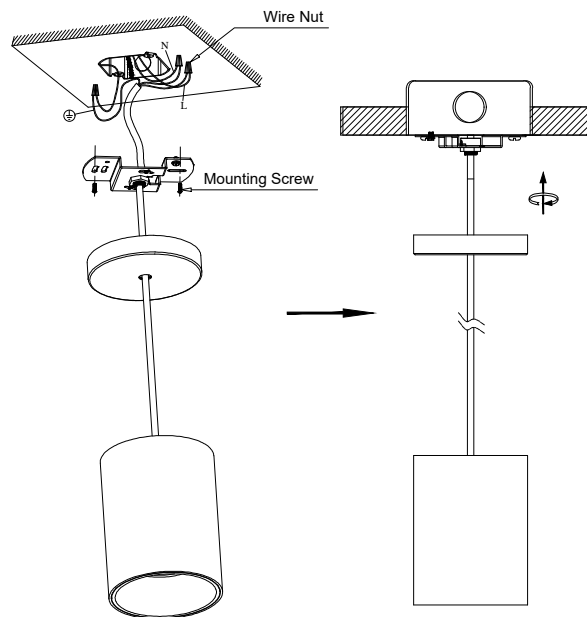

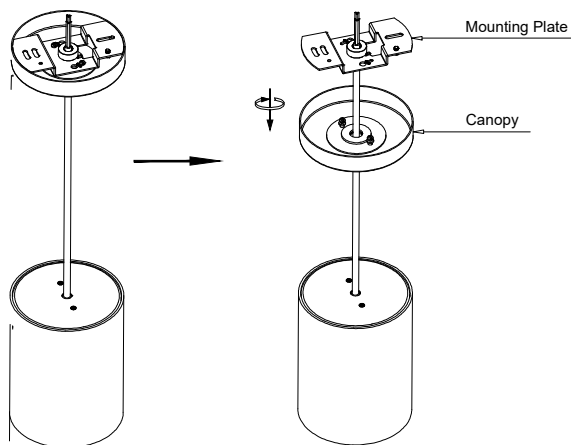

# INSTALLATION STRUCTURE - LPC 3/4/5 (TRIAC)

HELIUM LYTE

Fixture Size: Ø3.75"\*H6" / Ø4.5"\*H6" / Ø5.5"\*H6.38"

Mounting: Cable Mounting

1. Unpack and take out the fixture / accessory bag. Then twist down the canopy from the mounting plate.

2. Install the mounting plate of the fixture to J-box with mounting screws, then twist up the canopy to the mounting plate.

3. Finish the installation, turn on the power.

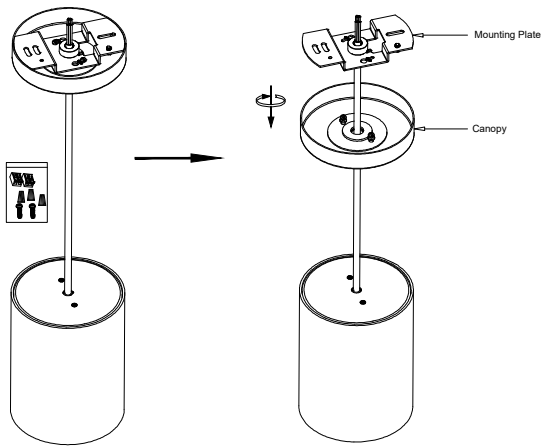

# INSTALLATION STRUCTURE - LPC 3/4/5 (DMV)

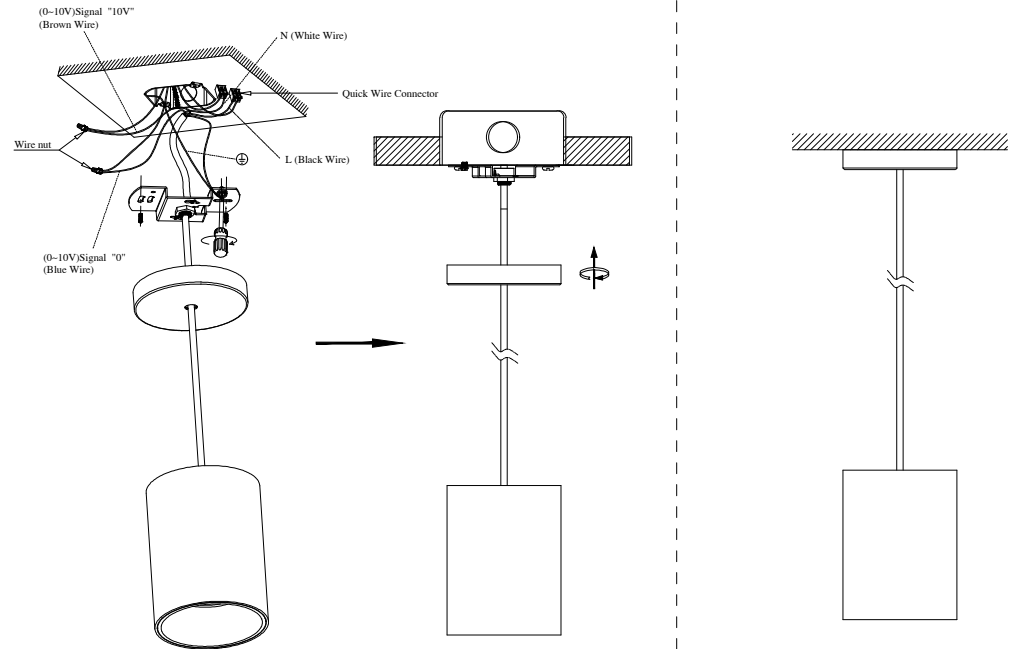

HELIUM LYTE

Fixture Size: Ø3.75"\*H6" / Ø4.5"\*H6" / Ø5.5"\*H6.38"

Mounting: Cable Mounting

1. Unpack and take out the fixture / accessory bag. Then twist down the canopy from the mounting plate.

2. Connect the wires in turn as the shown and neatly place all wires and wire nut connections inside the J-box, then install the mounting plate to J-box with mounting screws, finally twist up the canopy to the mounting plate.

3. Finish the installation, turn on the power.
